**Intrepid Capital Fund
Intrepid Small Cap Fund
Intrepid Income Fund
Intrepid All Cap Fund**

Supplement Dated September 3, 2010

To Statements of Additional Information (“SAI”) dated January 28, 2010, April 30, 2010, and August 14, 2010

Please delete the section of the SAI entitled “Portfolio Managers” in its entirety and replace it with the following:

PORTFOLIO MANAGERS

The sole investment adviser to the Funds is Intrepid Capital Management, Inc. The portfolio managers for the Funds have responsibility for the day-to-day management of accounts other than the Funds. Information regarding these other accounts is set forth below. The number of accounts and assets is shown as of September 30, 2009.

Name of Portfolio Manager	Number of Other Accounts Managed and Total Assets by Account Type			Number of Accounts and Total Assets for which Advisory Fee is Performance-Based		
	Registered Investment Companies	Other Pooled Investment Vehicles	Other Accounts	Registered Investment Companies	Other Pooled Investment Vehicles	Other Accounts
Mark Travis	0	1 \$28.5 million	0	0	1 \$28.5 million	0
Gregory Estes	0	0	34 \$76 million	0	0	0
Jayne Wiggins*	0	0	5 \$14.1 million	0	0	0

* As of August 24, 2010

The portfolio managers are responsible for managing other accounts. The Adviser typically assigns accounts with similar investment strategies to the portfolio managers to mitigate the potentially conflicting strategies of accounts. Other than potential conflicts between investment strategies, the side-by-side management of both the Funds and other accounts may raise potential conflicts of interest due to the interest held by the Adviser or one of its affiliates in an account, the fact that one account has a performance-based investment advisory fee and certain trading practices used by the portfolio managers (for example, cross trade between a Fund and another account and allocation of aggregated trades). The Adviser has developed policies and procedures reasonably designed to mitigate these conflicts. In particular, the Adviser has adopted policies limiting the ability of portfolio managers to cross trade securities between Funds and policies to ensure the fair allocation of securities purchased on an aggregated basis.

The portfolio managers are compensated in various forms. The following table outlines the forms of compensation paid to each portfolio manager as of September 30, 2009.

Name of Portfolio Manager	Form of Compensation	Source of Compensation	Method Used to Determine Compensation (Including Any Differences in Method)
Mark Travis	Salary	Intrepid Capital Management, Inc.	Mr. Travis’ salary is determined on an annual basis

<u>Name of Portfolio Manager</u>	<u>Form of Compensation</u>	<u>Source of Compensation</u>	<u>Method Used to Determine Compensation (Including Any Differences in Method)</u>
			and it is a fixed amount throughout the year. It is not based on the performance of the Funds or on the value of the assets held in the Funds' portfolios.
	Bonus	Intrepid Capital Management, Inc.	Mr. Travis receives a bonus based on the profitability of the Adviser.
Gregory Estes	Salary	Intrepid Capital Management, Inc.	Mr. Estes' salary is determined on an annual basis and it is a fixed amount throughout the year. It is not based on the performance of the Funds or on the value of the assets held in the Funds' portfolios.
	Bonus	Intrepid Capital Management, Inc.	Mr. Estes receives a bonus based on his performance and the profitability of the Adviser.
Jayne Wiggins*	Salary	Intrepid Capital Management, Inc.	Mr. Wiggins' salary is determined on an annual basis and it is a fixed amount throughout the year. It is not based on the performance of the Funds or on the value of the assets held in the Funds' portfolios.
	Bonus	Intrepid Capital Management, Inc.	Mr. Wiggins receives a bonus based on his performance and the profitability of the Adviser.

* As of August 24, 2010

The following table sets forth the dollar range of Fund shares beneficially owned by each portfolio manager as of September 30, 2009, stated using the following ranges: None, \$1-\$10,000, \$10,001-\$50,000, \$50,001-\$100,000, \$100,001-\$500,000, \$500,001-\$1,000,000 or over \$1,000,000.

<u>Portfolio Manager</u>	<u>Dollar Range of Shares Owned</u>			
	Intrepid Capital Fund	Intrepid Small Cap Fund	Intrepid Income Fund	Intrepid All Cap Fund
Mark Travis	\$50,001-\$100,000	\$100,001-\$500,000	\$100,001-\$500,000	\$100,001-\$500,000

No person has been authorized to give any information or to make any representations other than those contained in this SAI and the Prospectus each dated April 30, 2010 and, if given or made, such information or representations may not be relied upon as having been authorized by Intrepid Capital Management Funds Trust.

This SAI does not constitute an offer to sell securities.

FUND HISTORY AND CLASSIFICATION

The Trust is a Delaware statutory trust organized on August 27, 2004, is a non-diversified open-end management investment company registered under the Investment Company Act of 1940, as amended (the “1940 Act”). The Trust currently has four portfolios and the shares in any portfolio may be offered in separate classes. The Board of Trustees has established two classes of shares with respect to the Intrepid Capital Fund (the “Fund”), and this SAI relates to both classes – the Institutional Class and the Investor Class.

INVESTMENT RESTRICTIONS

The Fund has adopted the following investment restrictions which are matters of fundamental policy. The Fund’s investment restrictions cannot be changed without approval of the holders of the lesser of (i) 67% of the Fund’s shares present or represented at a shareholder’s meeting at which the holders of more than 50% of such shares are present or represented; or (ii) more than 50% of the outstanding shares of the Fund.

1. The Fund may not purchase securities of any issuer if the purchase would cause more than five percent of the value of the Fund’s total assets to be invested in securities of such issuer (except securities of the U.S. government or any agency or instrumentality thereof), or purchase more than ten percent of the outstanding voting securities of any one issuer, except that up to 50% of the Fund’s total assets may be invested without regard to these limitations.
2. The Fund may sell securities short and write put and call options to the extent permitted by the 1940 Act. The Fund has no current intention to sell securities short or write put and call options.
3. The Fund may not purchase securities on margin (except for such short term credits as are necessary for the clearance of transactions), except that the Fund may (i) borrow money to the extent permitted by the 1940 Act, as provided in Investment Restriction No. 4; (ii) purchase or sell futures contracts and options on futures contracts; (iii) make initial and variation margin payments in connection with purchases or sales of futures contracts or options on futures contracts; and (iv) write or invest in put or call options.
4. The Fund may borrow money or issue senior securities to the extent permitted by the 1940 Act.
5. The Fund may pledge, hypothecate or otherwise encumber any of its assets to secure its borrowings.
6. The Fund may not act as an underwriter or distributor of securities other than of its shares, except to the extent that the Fund may be deemed to be an underwriter within the meaning of the Securities Act of 1933, as amended (the “Securities Act”), in the disposition of restricted securities.
7. The Fund may not make loans, including loans of securities, except the Fund may acquire debt securities from the issuer or others which are publicly distributed or are of a type normally acquired by institutional investors and the Fund may enter into repurchase agreements.
8. The Fund may not invest 25% or more of its total assets (as of the time of purchase) in securities of non-governmental issuers whose principal business activities are in the same industry.
9. The Fund may not make investments for the purpose of exercising control or acquiring management of any company.
10. The Fund may not invest in real estate or real estate mortgage loans or make any investments in real estate limited partnerships.
11. The Fund may not purchase or sell commodities or commodity contracts, except that the Fund may enter into futures contracts, options on futures contracts and other similar instruments.

The Fund has adopted certain other investment restrictions which are not fundamental policies and which may be changed by the Trust’s Board of Trustees without shareholder approval. These additional restrictions are as follows:

12. The Fund will not acquire or retain any security issued by a company, an officer or trustee which is an officer or trustee of the Trust or an officer, trustee or other affiliated person of the Fund's investment adviser.
13. The Fund will not invest more than 15% of the value of its net assets in illiquid securities.
14. The Fund will not purchase the securities of other investment companies, except: (a) as part of a plan of merger, consolidation or reorganization approved by the shareholders of the Fund; (b) securities of registered open-end investment companies; or (c) securities of registered closed-end investment companies on the open market where no commission results, other than the usual and customary broker's commission. No purchases described in (b) and (c) will be made if as a result of such purchases (i) the Fund and its affiliated persons would hold more than 3% of any class of securities, including voting securities, of any registered investment company; (ii) more than 5% of the Fund's net assets would be invested in shares of any one registered investment company; and (iii) more than 10% of the Fund's net assets would be invested in shares of registered investment companies.

The aforementioned percentage restrictions on investment or utilization of assets refer to the percentage at the time an investment is made. If these restrictions are adhered to at the time an investment is made, and such percentage subsequently changes as a result of changing market values or some similar event, no violation of the Fund's fundamental restrictions will be deemed to have occurred. Any changes in the Fund's investment restrictions made by the Board of Trustees will be communicated to shareholders prior to their implementation.

INVESTMENT CONSIDERATIONS

The Fund's Prospectus describes its principal investment strategies and risks. This section expands upon that discussion and also describes non-principal investment strategies and risks.

Illiquid Securities

The Fund may invest up to 15% of its net assets in securities for which there is no readily available market ("illiquid securities"). The 15% limitation includes certain securities whose disposition would be subject to legal restrictions ("restricted securities"). However, certain restricted securities that may be resold pursuant to Regulation S or Rule 144A under the Securities Act may be considered liquid. Regulation S permits the sale abroad of securities that are not registered for sale in the United States. Rule 144A permits certain qualified institutional buyers to trade in privately placed securities not registered under the Securities Act. Institutional markets for restricted securities have developed as a result of Rule 144A, providing both ascertainable market values for Rule 144A securities and the ability to liquidate these securities to satisfy redemption requests. However, an insufficient number of qualified institutional buyers interested in purchasing Rule 144A securities held by the Fund could adversely affect their marketability, causing the Fund to sell securities at unfavorable prices.

The Board of Trustees of the Trust has delegated to Intrepid Capital Management, Inc. (the "Adviser") the day-to-day determination of the liquidity of a security, although it has retained oversight and ultimate responsibility for such determinations. Although no definite quality criteria are used, the Board of Trustees has directed the Adviser to consider such factors as: (i) the nature of the market for a security (including the institutional private resale markets); (ii) the terms of these securities or other instruments allowing for the disposition to a third party or the issuer thereof (e.g. certain repurchase obligations and demand instruments); (iii) the availability of market quotations; and (iv) other permissible factors.

Restricted securities may be sold in privately negotiated or other exempt transactions or in a public offering with respect to which a registration statement is in effect under the Securities Act. When registration is required, the Fund may be obligated to pay all or part of the registration expenses and a considerable time may elapse between the decision to sell and the sale date. If, during such period, adverse market conditions were to develop, the Fund might obtain a less favorable price than the price that prevailed when it decided to sell. Illiquid restricted securities will be priced at fair value as determined in good faith by the Board of Trustees.

Borrowing

The Fund may borrow money for investment purposes, although none has any present intention of doing so. Borrowing for investment purposes is known as leveraging. Leveraging investments, by purchasing securities with borrowed money,

is a speculative technique that increases investment risk, but also increases investment opportunity. When the Fund leverages its investments, the net asset value (“NAV”) per share will increase more when the Fund’s portfolio assets increase in value and decrease more when the portfolio assets decrease in value because substantially all of its assets fluctuate in value and the interest obligations on the borrowings are generally fixed. Interest costs on borrowings may partially offset or exceed the returns on the borrowed funds. Under adverse conditions, the Fund might have to sell portfolio securities to meet interest or principal payments at a time when investment considerations would not favor such sales. As required by the 1940 Act, the Fund must maintain continuous asset coverage (total assets, including assets acquired with borrowed funds, less liabilities exclusive of borrowings) of 300% of all amounts borrowed. If, at any time, the value of the Fund’s assets should fail to meet this 300% coverage test, the Fund will reduce the amount of the Fund’s borrowings to the extent necessary to meet this 300% coverage within three business days. Maintenance of this percentage limitation may result in the sale of portfolio securities at a time when investment considerations would not favor such sales.

In addition to borrowing for investment purposes, the Fund is authorized to borrow money from banks as a temporary measure for extraordinary or emergency purposes. For example, the Fund may borrow money to facilitate management of the Fund’s portfolio by enabling the Fund to meet redemption requests when the liquidation of portfolio investments would be inconvenient or disadvantageous. To the extent such borrowings do not exceed 5% of the value of the Fund’s total assets at the time of borrowing and are promptly repaid, they will not be subject to the foregoing 300% asset coverage requirement.

Warrants and Convertible Securities

The Fund may purchase rights and warrants to purchase equity securities. Rights and warrants are options to purchase equity securities at a specific price valid for a specific period of time. Investments in rights and warrants are speculative in that they have no voting rights, pay no dividends and have no rights with respect to the assets of the corporation issuing them. They do not represent ownership of securities, rather the right to buy them. Rights and warrants differ from call options in that rights and warrants are issued by the issuer of the security that may be purchased on their exercise, whereas call options may be written or issued by anyone. The prices of rights (if traded independently) and warrants do not necessarily move parallel to the prices of the underlying securities. Rights and warrants involve the risk that the Fund could lose the purchase value of the warrant if the warrant is not exercised prior to its expiration. They also involve the risk that the effective price paid for the warrant added to the subscription price of the related security may be greater than the value of the subscribed security’s market price.

The Fund may also invest in convertible securities. Convertible securities are debt securities or preferred stocks of corporations that are convertible into or exchangeable for common stocks. The Adviser will select only those convertible securities for which it believes (i) the underlying common stock is a suitable investment for the Fund; and (ii) a greater potential for total return exists by purchasing the convertible security because of its higher yield and/or favorable market valuation. (For the Income Fund, the Adviser will consider only the potential for total return.) Most of the Fund’s investment in convertible debt securities will be rated less than investment grade. Debt securities rated less than investment grade are commonly referred to as “junk bonds.” For additional information regarding convertible securities, please see “High Yield Securities” below.

High Yield Securities

The Fund may invest in corporate debt securities, including bonds and debentures (which are long-term) and notes (which may be short or long-term). These debt securities may be rated investment grade by Standard & Poor’s® (“S&P®”) or Moody’s Investors Service®, Inc. (“Moody’s”). Securities rated BBB by S&P® or Baa by Moody’s, although investment grade, exhibit speculative characteristics and are more sensitive than higher rated securities to changes in economic conditions.

The Fund may also invest in securities that are rated below investment grade, commonly referred to as junk bonds or high yield securities. Investments in high yield securities, while providing greater income and opportunity for gain than investments in higher-rated securities, entail relatively greater risk of loss of income or principal. Market prices of high yield, lower-grade obligations may fluctuate more than market prices of higher-rated securities. Lower grade, fixed income securities tend to reflect short-term corporate and market developments to a greater extent than higher-rated obligations which, assuming no change in their fundamental quality, react primarily to fluctuations in the general level of interest rates.

The Intrepid Capital Fund and the Intrepid Income Fund normally will not purchase convertible securities that are rated lower than “CCC” by S&P® or “Caa” by Moody’s, and will not continue to hold convertible securities downgraded lower than “C” by S&P® or Moody’s. Notwithstanding the foregoing, the Intrepid Income Fund may purchase convertible securities in default if it believes the default will be cured and the Intrepid Capital Fund may purchase convertible securities

in default if it believes the default will be cured or in situations where the Intrepid Capital Fund believes it is more appropriate to evaluate the security as if it were an equity investment.

The high yield market at times is subject to substantial volatility. An economic downturn or increase in interest rates may have a more significant effect on high yield securities and their markets, as well as on the ability of securities' issuers to repay principal and interest. Issuers of high yield securities may be of low creditworthiness and the high yield securities may be subordinated to the claims of senior lenders. During periods of economic downturn or rising interest rates the issuers of high yield securities may have greater potential for insolvency and a higher incidence of high yield bond defaults may be experienced.

The prices of high yield securities are generally less sensitive to interest rate changes than higher-rated investments, but are more sensitive to adverse economic changes or individual corporate developments. During an economic downturn or substantial period of rising interest rates, highly leveraged issuers may experience financial stress which would adversely affect their ability to service their principal and interest payment obligations, to meet projected business goals, and to obtain additional financing. If the issuer of a high yield security owned by the Fund defaults, the Fund may incur additional expenses in seeking recovery. Periods of economic uncertainty and changes can be expected to result in increased volatility of the market prices of high yield securities and the Fund's NAV. Yields on high yield securities will fluctuate over time. Furthermore, in the case of high yield securities structured as zero-coupon or pay-in-kind securities, their market prices are affected to a greater extent by interest rate changes and therefore tend to be more volatile than the market prices of securities which pay interest periodically and in cash.

Certain securities held by the Fund, including high yield securities, may contain redemption or call provisions. If an issuer exercises these provisions in a declining interest rate market, the Fund would have to replace the security with a lower yielding security, resulting in a decreased return for the investor. Conversely, a high yield security's value will decrease in a rising interest rate market, as will the value of the Fund's net assets.

In response to adverse publicity or investor perceptions, the secondary market for high yield securities may at times become less liquid making it more difficult for the Fund to accurately value or dispose of high yield securities. To the extent the Fund owns or may acquire illiquid or restricted high yield securities, these securities may involve special registration responsibilities, liabilities and costs, liquidity difficulties and judgment will play a greater role in valuation because there is less reliable and objective data available.

Special tax considerations are associated with investing in high yield bonds structured as zero-coupon or pay-in-kind securities. The Fund will report the interest on these securities as income even though it receives no cash interest until the security's maturity or payment date. Further, the Fund must distribute substantially all of its income to its shareholders to qualify for pass-through treatment under the tax law. Accordingly, the Fund may have to dispose of its portfolio securities under disadvantageous circumstances to generate cash or may have to borrow to satisfy distribution requirements.

Credit ratings evaluate the safety of principal and interest payments, not the market value risk of high yield securities. Since credit rating agencies may fail to timely change the credit ratings to reflect subsequent events, the Adviser monitors the issuers of high yield securities in the portfolio to determine if the issuers will have sufficient cash flow and profits to meet required principal and interest payments, and to attempt to assure the securities' liquidity so the Fund can meet redemption requests. To the extent that the Fund invests in high yield securities, the achievement of its investment objective may be more dependent on the Adviser's credit analysis than would be the case for higher quality bonds. The Fund may retain a portfolio security whose rating has been changed.

Money Market Instruments

The Fund may invest in cash and money market securities in order to take a temporary defensive position or have assets available to pay expenses, satisfy redemption requests or take advantage of investment opportunities. The money market securities in which the Fund invests include U.S. Treasury Bills, commercial paper, commercial paper master notes and repurchase agreements.

The Fund may invest in commercial paper or commercial paper master notes rated, at the time of purchase, A-1 or A-2 by S&P® or Prime-1 or Prime-2 by Moody's. Commercial paper master notes are demand instruments without a fixed maturity bearing interest at rates that are fixed to known lending rates and automatically adjusted when such lending rates change.

Under a repurchase agreement, the Fund purchases a debt security and simultaneously agrees to sell the security back to the seller at a mutually agreed-upon future price and date, normally one day or a few days later. The resale price is

greater than the purchase price, reflecting an agreed-upon market interest rate during the Fund's holding period. While the maturities of the underlying securities in repurchase transactions may be more than one year, the term of each repurchase agreement will always be less than one year. The Fund will enter into repurchase agreements only with member banks of the Federal Reserve system or primary dealers of U.S. government securities. The Adviser will monitor the creditworthiness of each of the firms that is a party to a repurchase agreement with the Fund. In the event of a default or bankruptcy by the seller, the Fund will liquidate those securities (whose market value, including accrued interest, must be at least equal to 100% of the dollar amount invested by the Fund in each repurchase agreement) held under the applicable repurchase agreement, which securities constitute collateral for the seller's obligation to pay. However, liquidation could involve costs or delays and, to the extent proceeds from the sale of these securities were less than the agreed-upon repurchase price the Fund would suffer a loss. The Fund also may experience difficulties and incur certain costs in exercising its rights to the collateral and may lose the interest the Fund expected to receive under the repurchase agreement. Repurchase agreements usually are for short periods of time, such as one week or less, but may be longer. It is the current policy of the Fund to treat repurchase agreements that do not mature within seven days as illiquid for the purposes of its investments policies.

The Fund may also invest in securities issued by other investment companies that invest in high quality, short-term debt securities (*i.e.*, money market instruments). In addition to the advisory fees and other expenses the Fund bears directly in connection with its own operations, as a shareholder of another investment company, the Fund would bear its pro rata portion of the other investment company's advisory fees and other expenses, and such fees and other expenses will be borne indirectly by the Fund's shareholders.

American Depository Receipts

The Fund may invest in American Depository Receipts ("ADRs"). ADRs evidence ownership of underlying securities issued by a foreign corporation. ADR facilities may be either "sponsored" or "unsponsored." While similar, distinctions exist relating to the rights and duties of ADR holders and market practices. A depository may establish an unsponsored facility without the participation by or consent of the issuer of the deposited securities, although a letter of non-objection from the issuer is often requested. Holders of unsponsored ADRs generally bear all the costs of such facility, which can include deposit and withdrawal fees, currency conversion fees and other service fees. The depository of an unsponsored facility may be under no duty to distribute shareholder communications from the issuer or to pass through voting rights. Issuers of unsponsored ADRs are not obligated to disclose material information in the U.S. and, therefore, there may not be a correlation between such information and the market value of the ADR. Sponsored facilities enter into an agreement with the issuer that sets out rights and duties of the issuer, the depository and the ADR holder. This agreement also allocates fees among the parties. Most sponsored agreements also provide that the depository will distribute shareholder notices, voting instruments and other communications. The Fund may invest in sponsored and unsponsored ADRs.

Other

Although the Fund may sell securities short or write put or call options to the extent permitted by the 1940 Act, none of the Fund currently has any intention of doing so. In addition, although the Fund may enter into futures contracts, options on futures contracts and other similar instruments, the Fund currently has no intention of doing so.

Temporary Investments

The Fund may, in response to adverse market, economic or other conditions, take temporary defensive positions. This means the Fund will invest some or all of its assets in money market instruments (like U.S. Treasury Bills, commercial paper or repurchase agreements). As a result, the Fund will not be able to achieve its investment objective of long-term capital appreciation or capital appreciation to the extent it invests in money market instruments. When the Fund is not taking a temporary defensive position, it will still hold some cash and money market instruments so that it can pay expenses, satisfy redemption requests or take advantage of investment opportunities.

PORTFOLIO TURNOVER

The Fund does not actively trade for short-term profits, but when the circumstances warrant, securities may be sold without regard to the length of time held. The annual portfolio turnover rate indicates changes in the Fund's portfolio and is calculated by dividing the lesser of purchases or sales of portfolio securities (excluding securities having maturities at acquisition of one year or less) for the fiscal year by the monthly average of the value of the portfolio securities (excluding securities having maturities at acquisition of one year or less) owned by the Fund during the fiscal year. High portfolio

turnover in any year (100% or higher) will result in the payment by the Fund of above-average transaction costs and could result in the payment by shareholders of above-average amounts of taxes on realized investment gains.

DISCLOSURE OF PORTFOLIO HOLDINGS

Fund Service Providers – Fund Administrator, Independent Registered Public Accounting Firm and Custodian

The Fund has entered into arrangements with certain third party service providers (fund administrator, independent registered public accounting firm and custodian) for services that require these groups to have access to the Fund's portfolios on a daily basis. For example, the Fund's administrator is responsible for maintaining the accounting records of the Fund, which includes maintaining a current portfolio of the Fund. The Fund also undergoes an annual audit that requires the Fund's independent registered public accounting firm to review the Fund's portfolio. In addition to the Fund's administrator, the Fund's custodian also maintains an up-to-date list of the Fund's holdings. Each of these parties is contractually and/or ethically prohibited from sharing the Fund's portfolios unless specifically authorized by the Fund.

Rating and Ranking Organizations

The Fund may provide its portfolio holdings to the following rating and ranking organizations:

Morningstar[®], Inc.
Lipper
Standard & Poor's[®] Ratings Group
Bloomberg[™], L.P.
Thomson[™] Financial Research

The Fund's management has determined that these organizations provide investors with a valuable service and, therefore, are willing to provide them with portfolio information. The Fund may not pay these organizations or receive any compensation from them for providing this information.

The Fund may provide portfolio information to these organizations on either a monthly or quarterly basis but not prior to ten business days following the end of the period.

Website Disclosure

The Fund publishes its top ten holdings at the end of each calendar quarter on its website at www.intrepidcapitalfunds.com. This information is updated approximately 15 to 30 business days following the end of each fiscal quarter. It is available to anyone that visits the website.

Oversight

The officers of the Trust are responsible for decisions authorizing the disclosure of portfolio holdings. The Trust's Chief Compliance Officer addresses issues relating to the disclosure of portfolio holdings, if any, in its annual report to the Trustees.

TRUSTEES AND OFFICERS OF THE TRUST

As a Delaware statutory trust, the business and affairs of the Trust are managed by its officers under the direction of its Board of Trustees (the "Board"). The Board is responsible for the overall management of the Trust. This includes the general supervision and review of the Fund's investment policies and activities. The Board approves all significant agreements between the Trust and those parties furnishing services to it, which include agreements with the Adviser, Administrator, Custodian and Transfer Agent. The Board appoints officers who conduct and administer the Fund's day-to-day operations.

Trustees' and Officers' Information

Certain important information regarding each of the trustees and officers of the Trust (including their principal occupations for at least the last five years) is set forth on the following pages.

<u>Name, Address and Age</u>	<u>Position(s) Held with the Fund</u>	<u>Term of Office and Length of Service</u>	<u>Principal Occupation(s) During Past Five Years</u>	<u>Number of Portfolios in Fund Complex Overseen by Trustee</u>	<u>Other Directorships Held by Trustee</u>
<u>Interested Trustees</u>⁽¹⁾					
Mark F. Travis c/o Intrepid Capital Management Funds Trust 1400 Marsh Landing Pkwy. Suite 106 Jacksonville Beach, FL 32250 Year of Birth: 1961	Trustee and President	Indefinite Term; Since November 2004	President, Intrepid Capital Management, Inc. (1995-present); Chief Executive Officer, Intrepid Capital Management, Inc. (2003-present).	Four	None

⁽¹⁾ “Interested” trustees are trustees who are deemed to be “interested persons” (as defined in the 1940 Act) of the Trust. Mr. Travis is an interested trustee because of his ownership in the Adviser and because he is an officer of the Trust.

	Mark F. Travis	Roy F. Clarke	Peter R. Osterman, Jr.	Ed Vandergriff, Jr.
Intrepid Capital Fund	\$50,001-\$100,000	\$10,001-\$50,000	\$0	\$1-\$10,000
Aggregate Dollar Range of Equity Securities in the Intrepid Capital Management Funds Trust*	Above \$100,000	\$10,001-\$50,000	\$10,001-\$50,000	\$1-\$10,000

* The Trust consists of 4 separate mutual fund portfolios, one of which is discussed in this SAI.

Compensation

Effective March 31, 2010, the Trust’s standard method of compensating non-interested Trustees is to pay each such Trustee an annual retainer of \$4,000 (which is then invested in shares of Intrepid mutual funds as designated by each Trustee) and a fee of \$4,000 for each meeting of the Board of Trustees attended. The Trust also reimburses such Trustees for their reasonable travel expenses incurred in attending meetings of the Board of Trustees. The Trust does not provide pension or retirement benefits to its Trustees and officers. The aggregate compensation paid by the Trust to each Trustee during the Trust’s fiscal period ending September 30, 2009 is set forth below:

Name of Person, Position	Aggregate Compensation from the Intrepid Capital Fund	Total Compensation from Trust Paid to Trustees*
Independent Trustees		
Roy F. Clarke	\$1,251	\$5,000
Peter R. Osterman, Jr.	\$1,251	\$5,000
Ed Vandergriff, Jr.	\$1,251	\$5,000
Interested Trustee		
Mark F. Travis, President	\$0	\$0

* The Trust consists of 4 separate mutual fund portfolios, one of which is discussed in this SAI.

Committees

The Trust's Board of Trustees has created an Audit Committee, whose members are Messrs. Clarke, Osterman and Vandergriff. The primary functions of the Audit Committee are to select the independent registered public accounting firm to be retained to perform the annual audit of the Fund, to review the results of the audit, to review the Trust's internal controls and to review certain other matters relating to the Trust's independent registered public accounting firm and financial records. The Trust's Board of Trustees has no other committees. The Audit Committee met twice during the Trust's fiscal year ending September 30, 2009.

Proxy Voting Policy

The Fund has directed the Adviser to vote proxies in accordance with the "Wall Street Rule" (*i.e.*, the Adviser will either vote as management recommends or sell the stock prior to the meeting). The Fund believes that following the "Wall Street Rule" is consistent with the economic best interests of the Fund. Consistent with its duty of care, the Adviser monitors proxy proposals just as it monitors other corporate events affecting the companies in which the Fund invests.

There may be instances where the interests of the Adviser may conflict or appear to conflict with the interests of the Fund. In such situations the Adviser will, consistent with its duty of care and duty of loyalty, vote the securities in accordance with its pre-determined voting policy, the "Wall Street Rule," but only after disclosing any such conflict to the Trust's Board of Trustees prior to voting and affording the Board the opportunity to direct the Adviser in the voting of such securities.

Information on how the Fund voted proxies relating to its portfolio securities during the most recent twelve-month period ending June 30 is available at the Fund's website at <http://www.intrepidcapitalfunds.com> or the website of the SEC at <http://www.sec.gov>.

Code of Ethics

The Trust and the Adviser have adopted a code of ethics pursuant to Rule 17j-1 under the Act. Subject to certain conditions, the code of ethics permits personnel subject thereto to invest in securities, including securities that may be purchased or held by the Fund. The code of ethics prohibits, among other things, persons subject thereto from purchasing or selling securities if they know at the time of such purchase or sale that the security is being considered for purchase or sale by the Fund or is being purchased or sold by the Fund.

MANAGEMENT OWNERSHIP, PRINCIPAL SHAREHOLDERS AND CONTROL PERSONS

A principal shareholder is any person who owns of record or beneficially 5% or more of the outstanding shares of the Fund. A control person is a shareholder that owns beneficially or through controlled companies more than 25% of the voting securities of a company or acknowledges the existence of control. Shareholders owning voting securities in excess of 25% may determine the outcome of any matter affecting and voted on by shareholders of the Fund. As of April 2, 2010,

the following persons owned of record or are known by the Trust to own of record or own beneficially 5% or more of the Fund's outstanding Investor Class shares (Institutional Class shares were not offered for sale until the date of this SAI).

Name and Address	% Ownership	Nature of Ownership
Charles Schwab & Co. For the exclusive benefit of its customers 101 Montgomery Street San Francisco, CA 94104-4151	34.16%	Holder of Record
National Financial Services LLC For the exclusive benefit of its customers 200 Liberty Street New York, NY 10281-1003	11.08%	Holder of Record

As of March 31, 2010, the Trustees and Officers as a group owned less than 1% of the outstanding shares of the Fund.

MANAGEMENT OF THE TRUST

Investment Adviser

The investment adviser to the Fund is Intrepid Capital Management, Inc., 1400 Marsh Landing Pkwy. Suite 106, Jacksonville Beach, FL 32250. The Adviser is a wholly-owned subsidiary of Intrepid Capital Corporation.

Pursuant to each Advisory Agreement, the Adviser furnishes continuous investment advisory services to the Fund. The Adviser supervises and manages the investment portfolio of the Fund and, subject to such policies as the Board of Trustees of the Trust may determine, directs the purchase or sale of investment securities in the day-to-day management of the Fund. Under the Advisory Agreements, the Adviser, at its own expense and without separate reimbursement from the Fund, furnishes office space and all necessary office facilities, equipment and executive personnel for managing the Fund and maintaining their organization; bears all sales and promotional expenses of the Fund, other than distribution expenses paid by the Fund pursuant to the Fund's Service and Distribution Plan, and expenses incurred in complying with the laws regulating the issue or sale of securities; and pays salaries and fees of all officers and trustees of the Trust (except the fees paid to trustees who are not officers of the Trust). For the foregoing, the Intrepid Capital Fund pays the Adviser a monthly fee based on the Fund's average daily net assets at the annual rate of 1.00% on the first \$500 million of that Fund's average daily net assets and 0.80% of that Fund's average daily net assets in excess of \$500 million.

The Fund pays all of its expenses not assumed by the Adviser, including, but not limited to, the costs of preparing and printing the registration statements required under the Securities Act and the 1940 Act and any amendments thereto, the expenses of registering their shares with the SEC and in various states, the printing and distribution cost of prospectuses mailed to existing shareholders, the cost of trustee and officer liability insurance, reports to shareholders, reports to government authorities and proxy statements, interest charges, brokerage commissions and expenses incurred in connection with portfolio transactions. The Trust also pays the fees of trustees who are not officers of the Trust, salaries of administrative and clerical personnel, association membership dues, auditing and accounting services, fees and expenses of any custodian having custody of assets of the Fund, expenses of calculating NAVs and repurchasing and redeeming shares, and charges and expenses of dividend disbursing agents, registrars and share transfer agents, including the cost of keeping all necessary shareholder records and accounts and handling any problems relating thereto.

Pursuant to the Advisory Agreements, the Adviser has undertaken to reimburse the Fund to the extent that its aggregate annual operating expenses, including the investment advisory fee, but excluding interest, dividends on short positions, taxes, brokerage commissions and other costs incurred in connection with the purchase or sale of portfolio securities, and extraordinary items, exceed that percentage of the average net assets of the Fund for such year, as determined by valuations made as of the close of each business day of the year, which is the most restrictive percentage provided by the state laws of the various states in which the shares of the Fund are qualified for sale or, if the states in which the shares of the Fund are qualified for sale impose no such restrictions, 3.00%.

In addition, under a separate agreement, the Adviser has contractually agreed to reduce its fees and/or reimburse the Fund to the extent necessary to ensure that net annual operating expenses (excluding acquired fund fees and expenses) do not exceed 1.15% for the Institutional Class shares and 1.40% for the Investor Class shares of the Fund, through January 31, 2011. Only the Board of Trustees has the power to terminate such agreements prior to January 31, 2011 with respect to the Fund. The Adviser has a right to receive reimbursement for fee reductions and/or expense payments made pursuant to these agreements made in the prior three fiscal years, provided that after giving effect to such reimbursement net annual operating expenses (excluding Acquired Fund Fees and Expenses) do not exceed 1.15% for the Institutional Class shares and 1.40% for the Investor Class shares of the Fund in the year of reimbursement.

The Fund monitors its expense ratio on a monthly basis. If the accrued amount of the expenses of the Fund exceeds the expense limitation, the Fund creates an account receivable from the Adviser for the amount of such excess. In such a situation the monthly payment of the Adviser's fee will be reduced by the amount of such excess (and if the amount of such excess in any month is greater than the monthly payment of the Adviser's fee, the Adviser will pay the Fund the amount of such difference), subject to adjustment month by month during the balance of the Fund's fiscal year if accrued expenses thereafter fall below this limit.

The Advisory Agreements will remain in effect as long as their continuance is specifically approved at least annually (i) by the Board of Trustees of the Trust or by the vote of a majority (as defined in the 1940 Act) of the outstanding shares of the applicable Fund; and (ii) by the vote of a majority of the trustees of the Trust who are not parties to the Advisory Agreements or interested persons of the Adviser, cast in person at a meeting called for the purpose of voting on such approval. Each Advisory Agreement provides that it may be terminated at any time without the payment of any penalty by the Board of Trustees of the Trust or by vote of the majority of the applicable Fund's shareholders on a 60 day written notice to the Adviser, and by the Adviser on the same notice to the Trust, and that it shall be automatically terminated if it is assigned.

Each Advisory Agreement provides that the Adviser shall not be liable to the Trust or its shareholders for anything other than willful misfeasance, bad faith, gross negligence or reckless disregard of its obligations or duties. Each Advisory Agreement also provides that the Adviser and its officers, trustees and employees may engage in other businesses, devote time and attention to any other business whether of a similar or dissimilar nature, and render services to others.

The table below shows the amount of advisory fees paid by the Fund and the amount of fees waived and/or reimbursed by the Adviser for the fiscal periods shown.

	Advisory Fees Incurred	Waived Fees and/or Reimbursed expenses by Adviser	Recouped Fees and Expenses	Net Fees paid to the Adviser
Intrepid Capital Fund				
Year Ended September 30, 2009	\$435,554	\$0	\$41,931	\$477,485
Year Ended September 30, 2008	\$348,316	\$0	\$55,465	\$403,781
Year Ended September 30, 2007	\$315,882	\$0	\$1,269	\$317,151

Waived fees and/or reimbursed expenses subject to potential recovery by the Adviser by year of expiration are as follows:

	Year of Expiration		
	9/30/10	9/30/11	9/30/12
Intrepid Capital Fund	—	—	—

Administrator

The administrator to the Trust is U.S. Bancorp Fund Services, LLC, 615 East Michigan Street, Milwaukee, Wisconsin 53202 (the "Administrator"). Pursuant to a Fund Administration Servicing Agreement (the "Administration Agreement") entered into between the Trust and the Administrator relating to the Fund, the Administrator maintains the books, accounts and other documents required by the Act, responds to shareholder inquiries, prepares the Fund's financial statements and tax returns, prepares certain reports and filings with the SEC and with state Blue Sky authorities, furnishes statistical and research data, clerical, accounting and bookkeeping services and stationery and office supplies, keeps up and maintains the

Fund's financial and accounting records and generally assists in all aspects of the Fund's operations. The Administrator, at its own expense and without reimbursement from the Fund, furnishes office space and all necessary office facilities, equipment and executive personnel for performing the services required to be performed by it under the Administration Agreement. For the foregoing, the Administrator will receive from the Fund a fee, paid monthly, at an annual rate of 0.08% for the first \$300 million of the Fund's average net assets, 0.07% for the next \$500 million of the Fund's average net assets and 0.04% of the Fund's average net assets in excess of \$800 million, plus reimbursement for out-of-pocket expenses. Notwithstanding the foregoing, the Administrator's minimum annual fee is \$40,000 for the Fund. The Administration Agreement will remain in effect until terminated by either party. The Administration Agreement may be terminated at any time, without the payment of any penalty, by the Board of Trustees of the Trust upon the giving of a 90 day written notice to the Administrator, or by the Administrator upon the giving of a 90 day written notice to the Trust.

Under the Administration Agreement, the Administrator shall exercise reasonable care and is not liable for any error or judgment or mistake of law or for any loss suffered by the Trust in connection with the performance of the Administration Agreement, except a loss resulting from willful misfeasance, bad faith or negligence on the part of the Administrator in the performance of its duties under the Administration Agreement.

The table below shows the amount of fees paid by the Intrepid Capital Fund to the Administrator for the fiscal period shown.

Fiscal Period	Intrepid Capital Fund
Year Ended September 30, 2009	\$39,425
Year Ended September 30, 2008	\$34,110
Year Ended September 30, 2007	\$36,921

Custodian

U.S. Bank, N.A., (the "Custodian") 1555 N. RiverCenter Drive, Suite 302, Milwaukee, Wisconsin 53202, an affiliate of U.S. Bancorp Fund Services, LLC and the Distributor, serves as custodian of the assets of the Fund pursuant to a Custody Agreement. Under the Custody Agreement, the Custodian has agreed to (i) maintain a separate account in the name of the Fund; (ii) make receipts and disbursements of money on behalf of the Fund; (iii) collect and receive all income and other payments and distributions on account of the Fund's portfolio investments; (iv) respond to correspondence from shareholders, security brokers and others relating to its duties and; (v) make periodic reports to the Fund concerning the Fund's operations.

Transfer Agent, Dividend Disbursing Agent and Fund Accountant

U.S. Bancorp Fund Services, LLC ("USBFS"), 615 East Michigan Street, Milwaukee, Wisconsin 53202, also serves as transfer agent and dividend disbursing agent for the Fund under a Transfer Agent Agreement. As transfer and dividend disbursing agent, USBFS has agreed to (i) issue and redeem shares of the Fund; (ii) make dividend and other distributions to shareholders of the Fund; (iii) respond to correspondence by Fund shareholders and others relating to its duties; (iv) maintain shareholder accounts; and (v) make periodic reports to the Fund.

In addition, the Trust has entered into a Fund Accounting Servicing Agreement with USBFS pursuant to which USBFS has agreed to maintain the financial accounts and records of the Fund and provide other accounting services to the Fund. For its accounting services, USBFS is entitled to receive fees from the Fund, payable monthly, based on the total annual rate of \$95,000 for the first \$30 million in average net assets of the Trust, 0.02% on the next \$300 million of average net assets, 0.01% on the next billion of average net assets, and 0.0075% on the balance, plus reimbursement for out-of-pocket expenses.

Distributor

Quasar Distributors, LLC (the "Distributor"), an affiliate of USBFS and the Custodian, acts as distributor for the Fund under a Distribution Agreement. Its principal business address is 615 East Michigan Street, Milwaukee, WI 53202. The Distributor sells the Fund's shares on a best efforts basis. Shares of the Fund are offered continuously.

For the fiscal year ended September 30, 2009, the Distributor received \$47,529.72 as compensation from the Trust for distribution services for the Trust.

PORTFOLIO MANAGERS

The sole investment adviser to the Fund is Intrepid Capital Management, Inc. The portfolio managers for the Fund have responsibility for the day-to-day management of accounts other than the Fund. Information regarding these other accounts is set forth below. The number of accounts and assets is shown as of September 30, 2009.

Name of Portfolio Manager	Number of Other Accounts Managed and Total Assets by Account Type			Number of Accounts and Total Assets for which Advisory Fee is Performance-Based		
	Registered Investment Companies	Other Pooled Investment Vehicles	Other Accounts	Registered Investment Companies	Other Pooled Investment Vehicles	Other Accounts
Mark Travis	0	1 \$28.5 million	0	0	1 \$28.5 million	0
Eric Cinnamond	0	0	11 \$16 million	0	0	0
Gregory Estes	0	0	34 \$76 million	0	0	0

The portfolio managers are responsible for managing other accounts. The Adviser typically assigns accounts with similar investment strategies to the portfolio managers to mitigate the potentially conflicting strategies of accounts. Other than potential conflicts between investment strategies, the side-by-side management of both the Fund and other accounts may raise potential conflicts of interest due to the interest held by the Adviser or one of its affiliates in an account, the fact that one account has a performance-based investment advisory fee and certain trading practices used by the portfolio managers (for example, cross trade between the Fund and another account and allocation of aggregated trades). The Adviser has developed policies and procedures reasonably designed to mitigate these conflicts. In particular, the Adviser has adopted policies limiting the ability of portfolio managers to cross trade securities between the Fund and other Intrepid mutual funds and policies to ensure the fair allocation of securities purchased on an aggregated basis.

The portfolio managers are compensated in various forms. The following table outlines the forms of compensation paid to each portfolio manager as of September 30, 2009.

Name of Portfolio Manager	Form of Compensation	Source of Compensation	Method Used to Determine Compensation (Including Any Differences in Method)
Mark Travis	Salary	Intrepid Capital Management, Inc.	Mr. Travis' salary is determined on an annual basis and it is a fixed amount throughout the year. It is not based on the performance of the Fund or on the value of the assets held in the Fund's portfolio.
	Bonus	Intrepid Capital Management, Inc.	Mr. Travis receives a bonus based on the profitability of the Adviser.
Eric Cinnamond	Salary	Intrepid Capital Management, Inc.	Mr. Cinnamond's salary is determined on an annual basis and it is a fixed amount throughout the year. It is not based on the performance of the Fund or on the value of the assets held in the Fund's portfolio.

<u>Name of Portfolio Manager</u>	<u>Form of Compensation</u>	<u>Source of Compensation</u>	<u>Method Used to Determine Compensation (Including Any Differences in Method)</u>
	Bonus	Intrepid Capital Management, Inc.	Mr. Cinnamon receives a bonus based on his performance and the profitability of the Adviser.
Gregory Estes	Salary	Intrepid Capital Management, Inc.	Mr. Estes' salary is determined on an annual basis and it is a fixed amount throughout the year. It is not based on the performance of the Fund or on the value of the assets held in the Fund's portfolio.
	Bonus	Intrepid Capital Management, Inc.	Mr. Estes receives a bonus based on his performance and the profitability of the Adviser.

The following table sets forth the dollar range of Fund shares beneficially owned by each portfolio manager as of September 30, 2009, stated using the following ranges: None, \$1-\$10,000, \$10,001-\$50,000, \$50,001-\$100,000, \$100,001-\$500,000, \$500,001-\$1,000,000 or over \$1,000,000.

<u>Portfolio Manager</u>	<u>Dollar Range of Shares Owned</u>
Mark Travis	\$50,001-\$100,000
Eric Cinnamon	\$1 - \$10,000
Gregory Estes	\$1 - \$10,000

DETERMINATION OF NET ASSET VALUE

The NAV of the Fund will normally be determined as of the close of regular trading (currently 4:00 p.m. Eastern time) on each day the New York Stock Exchange ("NYSE") is open for trading. The NYSE is open for trading Monday through Friday except New Year's Day, Dr. Martin Luther King, Jr. Day, President's Day, Good Friday, Memorial Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day. Additionally, when any of the aforementioned holidays falls on a Saturday, the NYSE will not be open for trading on the preceding Friday and when any such holiday falls on a Sunday, the NYSE will not be open for trading on the succeeding Monday, unless unusual business conditions exist, such as the ending of a monthly or the yearly accounting period. The NYSE also may be closed on national days of mourning. The staff of the SEC considers the NYSE to be closed on any day when it is not open for trading the entire day. On those days the Fund may, but is not obligated to, determine its NAV.

The per share NAV of the Fund is determined by dividing the value of the Fund's net assets (*i.e.*, its assets less its liabilities) by the total number of its shares outstanding at that time. Due to the fact that different expenses are charged to the Institutional Class and Investor Class of the Intrepid Capital Fund, the NAV of the two classes of the Intrepid Capital Fund may vary. In determining the NAV of the Fund's shares, securities that are listed on national securities exchanges are valued at the last sales price on the securities exchange on which such securities are primarily traded. Securities that are traded on the NASDAQ[®] Global Select Market or the NASDAQ[®] Capital MarketSM (collectively "NASDAQ[®] traded securities") are valued at the NASDAQ[®] Official Closing Price ("NOCP"). Exchange-traded securities for which there were no transactions and NASDAQ[®] traded securities for which there is no NOCP are valued at the most recent bid price. Other securities will be valued by an independent pricing service at the most recent bid price, if market quotations are readily available. Any securities for which there are no readily available market quotations and other assets will be valued at their value as determined in good faith by the Board of Trustees.

Since the Institutional Class shares of the Fund have not commenced operations prior to the date of this SAI, an example of how the Investor Class shares of the Fund calculated the net asset value per share as of September 30, 2009 is as follows:

Intrepid Capital Fund – Investor Class

$$\frac{\text{Net Assets}}{\text{Shares Outstanding}} = \text{Net Asset Value per share}$$

$$\frac{\$74,598,093}{7,469,191} = \$9.99$$

DISTRIBUTION OF SHARES

The Trust has adopted a Service and Distribution Plan (the “Plan”). The Plan was adopted in anticipation that the Fund, except for the Institutional Class shares of the Fund, will benefit from the Plan through increased sale of shares, thereby reducing the Fund’s expense ratio and providing the Advisor greater flexibility in management. The Plan authorizes payments by the Fund in connection with the distribution of its shares at an annual rate, as determined from time to time by the Board of Trustees, of up to 0.25% of the Fund’s average daily net assets. Amounts paid under the Plan by the Fund may be spent by the Fund on any activities or expenses primarily intended to result in the sale of shares of the Fund, including, but not limited to, advertising, compensation for sales and marketing activities of financial institutions and others such as dealers and distributors, shareholder account servicing, the printing and mailing of prospectuses to other than current shareholders and the printing and mailing of sales literature. To the extent any activity is one that the Fund may finance without a plan pursuant to Rule 12b-1, the Fund may also make payments to finance such activity outside of the Plan and not subject to its limitations.

The Plan may be terminated by the Fund at any time by a vote of the trustees of the Trust who are not interested persons of the Trust and who have no direct or indirect financial interest in the Plan or any agreement related thereto (the “Rule 12b-1 Trustees”) or by a vote of a majority of the outstanding shares of the Fund. Messrs. Clarke, Osterman and Vandergriff are currently the Rule 12b-1 Trustees. Any change in the Plan that would materially increase the distribution expenses of the Fund provided for in the Plan requires approval of the Board of Trustees, including the Rule 12b-1 Trustees, and a majority of the Fund’s shares.

While the Plan is in effect, the selection and nomination of trustees who are not interested persons of the Trust will be committed to the discretion of the trustees of the Trust who are not interested persons of the Trust. The Board of Trustees of the Trust must review the amount and purposes of expenditures pursuant to the Plan quarterly as reported to it by the Distributor or officers of the Trust. The Plan will continue in effect for as long as its continuance is specifically approved at least annually by the Board of Trustees, including the Rule 12b-1 Trustees.

The tables below show the amount of 12b-1 fees paid by the Investor Class of the Fund for the fiscal year ended September 30, 2009.

12b-1 fees paid	
Fund	Year Ended September 30, 2009
Intrepid Capital Fund – Investor Class	\$108,888

For the fiscal year ended September 30, 2009, the following amounts were paid pursuant to the Distribution Plan:

12b-1 Expenses Paid	
<u>Intrepid Capital Fund – Investor Class</u>	
Advertising and Marketing	\$52,538
Printing and Postage	\$860
Payment to distributor	\$13,927
Payment to dealers	\$41,563
Compensation to sales personnel	\$0
Other Marketing Expenses	\$0

AUTOMATIC INVESTMENT PLAN AND TELEPHONE PURCHASES

The Fund offers an automatic investment option pursuant to which money will be moved from a shareholder's bank account to the shareholder's Fund account on the schedule (e.g., monthly or quarterly) the shareholder selects. The minimum amount required to open an account with an automatic investment plan is \$2,500 for Investor Class shares and \$250,000 for Institutional Class shares, and the minimum investment amount thereafter is \$100 per month.

The Fund offers a telephone purchase option pursuant to which money will be moved from a shareholder's bank account to the shareholder's Fund account upon request. Only bank accounts held at domestic financial institutions that are Automated Clearing House ("ACH") members can be used for telephone transactions. Shares will be purchased at the NAV calculated on the day of your purchase order if your purchase order is received prior to the close of regular trading on the NYSE (currently 4:00 p.m. Eastern time). The minimum amount that can be transferred by telephone is \$100.

Anti-Money Laundering Program

The Fund has established an Anti-Money Laundering Compliance Program (the "Program") as required by the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 ("USA PATRIOT Act"). To ensure compliance with this law, the Fund's Program provides for the development of internal practices, procedures and controls, designation of anti-money laundering compliance officers, an ongoing training program and an independent audit function to determine the effectiveness of the Program.

Procedures to implement the Program include, but are not limited to, determining that the Fund's Distributor and transfer agent have established proper anti-money laundering procedures, reporting suspicious and/or fraudulent activity and a complete and thorough review of all new opening account applications. The Fund will not transact business with any person or entity whose identity cannot be adequately verified under the provisions of the USA PATRIOT Act.

REDEMPTION OF SHARES

A shareholder's right to redeem shares of the Fund will be suspended and the right to payment postponed for more than seven days for any period during which the NYSE is closed because of financial conditions or any other extraordinary reason and may be suspended for any period during which (i) trading on the NYSE is restricted pursuant to rules and regulations of the SEC; (ii) the SEC has by order permitted such suspension; or (iii) such emergency, as defined by rules and regulations of the SEC, exists as a result of which it is not reasonably practicable for the Fund to dispose of its securities or fairly to determine the value of its net assets.

The Fund imposes a 2% redemption fee on the value of shares redeemed 30 days or less after purchase. The 2% redemption fee does not apply to exchanges between the Fund and other Intrepid mutual funds. The redemption fee will not apply to (a) shares purchased through reinvested distributions (dividends and capital gains); (b) shares held in employer-sponsored retirement plans, such as 401(k) plans, but will apply to IRA accounts; or (c) through systematic programs such as the system withdrawal plan, automatic investment plan and systematic exchange plans. The redemption fee is designed to discourage short-term trading and any proceeds of the fee will be credited to the assets of the Fund.

In calculating whether a redemption of the Fund's shares is subject to a redemption fee, a shareholder's holdings will be viewed on a "first in/first out" basis. This means that, in determining whether any fee is due, the shareholder will be deemed to have sold the shares he or she acquired earliest. The fee will be calculated based on the current NAV of the shares as of the redemption date.

SYSTEMATIC WITHDRAWAL PLAN

An investor who owns Investor Class shares of the Fund worth at least \$10,000 (at least \$350,000 for Institutional Class shares of the Fund) may, by completing an application which may be obtained from the Trust or USBFS, create a Systematic Withdrawal Plan ("SWP") from which a fixed sum will be paid to the investor at regular intervals. To establish the SWP, the investor deposits Fund shares with the Trust and appoints the Trust as agent to effect redemptions of shares held in the account for the purpose of making monthly or quarterly withdrawal payments of a fixed amount to the investor out of the account. Fund shares deposited by the investor in the account need not be endorsed or accompanied by a stock power if registered in the same name as the account; otherwise, a properly executed endorsement or stock power, obtained from any bank, broker-dealer or the Trust is required. The investor's signature may be required to be guaranteed by a bank, a member firm of a national stock exchange or other eligible guarantor.

The minimum amount of a withdrawal payment is \$100. These payments will be made from the proceeds of periodic redemptions of shares in the account at NAV. Redemptions will be made in accordance with the schedule (*e.g.*, monthly, quarterly or yearly, but in no event more frequently than monthly) selected by the investor. If a scheduled redemption is a weekend or a holiday, such redemption will be made on the next business day. Because a SWP may reduce, and eventually deplete, your account over time, investors may want to consider reinvesting all income dividends and capital gains distributions payable by the Fund. The investor may purchase or transfer additional Fund shares in his or her account at any time.

Withdrawal payments cannot be considered as yield or income on the investor's investment, since portions of each payment will normally consist of a return of capital. Depending on the size or the frequency of the disbursements requested, and the fluctuation in the value of the Fund's portfolio, redemptions for the purpose of making such disbursements may reduce or even exhaust the investor's account.

The investor may vary the amount or frequency of withdrawal payments, temporarily discontinue them, or change the designated payee or payee's address, by notifying USBFS in writing five days prior to the effective date.

ALLOCATION OF PORTFOLIO BROKERAGE

General

The Fund's securities trading and brokerage policies and procedures are reviewed by and subject to the supervision of the Trust's Board of Trustees. Decisions to buy and sell securities for the Fund are made by the Adviser subject to review by the Trust's Board of Trustees. In placing purchase and sale orders for portfolio securities for the Fund, it is the policy of the Adviser to seek the best execution of orders at the most favorable price in light of the overall quality of brokerage and research services provided, as described in this and the following paragraphs. Many of these transactions involve payment of a brokerage commission by the Fund. In some cases, transactions are with firms who act as principals of their own accounts. In selecting brokers to effect portfolio transactions, the determination of what is expected to result in best execution at the most favorable price involves a number of largely judgmental considerations. Among these are the Adviser's evaluation of the broker's efficiency in executing and clearing transactions, block trading capability (including the broker's willingness to position securities) and the broker's reputation, financial strength and stability. The most favorable price to the Fund means the best net price without regard to the mix between purchase or sale price and commission, if any. Over-the-counter securities may be purchased and sold directly with principal market makers who retain the difference in their cost in the security and its selling price (*i.e.*, "markups" when a market maker sells a security and "markdowns" when the market maker purchases a security). In some instances, the Adviser feels that better prices are available from non-principal market makers who are paid commissions directly.

In allocating brokerage business for the Fund, the Adviser also takes into consideration the research, analytical, statistical and other information and services provided by the broker, such as general economic reports and information, reports or analyses of particular companies or industry groups, market timing and technical information, and the availability of the brokerage firm's analysts for consultation. While the Adviser believes these services have substantial value, they are considered supplemental to the Adviser's own efforts in the performance of its duties under the Advisory Agreements. Other clients of the Adviser may indirectly benefit from the availability of these services to the Adviser, and the Fund may indirectly benefit from services available to the Adviser as a result of transactions for other clients. The Advisory Agreements provide that the Adviser may cause the Fund to pay a broker that provides brokerage and research services to the Adviser a commission for effecting a securities transaction in excess of the amount another broker would have charged for effecting the transaction, if the Adviser determines in good faith that such amount of commission is reasonable in relation to the value of brokerage and research services provided by the executing broker viewed in terms of either the particular transaction or the Adviser's overall responsibilities with respect to the Fund and the other accounts as to which it exercises investment discretion.

Brokerage Commissions

An aggregate brokerage commission paid by the Fund for the following fiscal periods is shown in the table below.

Brokerage Fees Paid

Fund	Year Ended September 30, 2009	Year Ended September 30, 2008	Year Ended September 30, 2007
Intrepid Capital Fund	\$109,987	\$110,610	\$29,034

The Intrepid Capital Fund paid higher brokerage commissions in fiscal 2008 compared to fiscal 2007 due to a higher portfolio turnover rate and a repositioning of the Fund's portfolio in fiscal year 2008.

Aggregate brokerage commissions paid by the Fund to brokers who provided brokerage and research services for the fiscal year ended September 30, 2009 are shown in the table below.

	Intrepid Capital Fund
Commissions Paid to Brokers Who Supplied Research Services	\$15,786
Total Dollar Amount Involved in Such Transactions	\$7,530,780

TAXES

This section is not intended to be a complete discussion of present or proposed federal income tax laws and the effect of such laws on an investor. Investors are urged to consult with their respective tax advisers for a complete review of the tax ramifications of an investment in the Fund.

Taxation as Regulated Investment Company

The Fund intends to qualify annually for and elect tax treatment applicable to a regulated investment company under Subchapter M of the Internal Revenue Code of 1986, as amended (the "Code").

In order to qualify as a regulated investment company under Subchapter M, the Fund must have at least 90% of its annual gross income derived from qualified sources and the Fund must have at least 50% of its assets invested in qualified assets for each quarter during a fiscal year, in addition to meeting other code requirements.

If the Fund fails to qualify as a regulated investment company under Subchapter M in any fiscal year, it will be treated as a corporation for federal income tax purposes. As such, the Fund would be required to pay income taxes on its net investment income and net realized capital gains, if any, at the rates generally applicable to corporations. Shareholders of the Fund would not be liable for income tax on the Fund's net investment income or net realized capital gains in their individual capacities. Distributions to shareholders, whether from the Fund's net investment income or net realized capital gains, would be treated as taxable dividends to the extent of current or accumulated earnings and profits of the Fund.

Tax Character of Distributions and Redemptions

The Fund intends to distribute substantially all of its net investment income and net capital gain each fiscal year. Dividends from net investment income and short-term capital gains are taxable to investors as ordinary income (although a portion of such dividends may be taxable to investors at the lower rate applicable to dividend income), while distributions of net long-term capital gains are taxable as long-term capital gain regardless of the shareholder's holding period for the shares. Distributions from the Fund are taxable to investors, whether received in cash or in additional shares of the Fund.

Any dividend or capital gain distribution paid shortly after a purchase of shares of the Fund, will have the effect of reducing the per share NAV of such shares by the amount of the dividend or distribution. Furthermore, if the NAV of the shares of the Fund immediately after a dividend or distribution is less than the cost of such shares to the shareholder, the dividend or distribution will be taxable to the shareholder even though it results in a return of capital to him or her.

Redemption of shares will generally result in a capital gain or loss for income tax purposes. Such capital gain or loss will be long term or short term, depending upon the holding period. However, if a loss is realized on shares held for six months or less, and the investor received a capital gain distribution during that period, then such loss is treated as a long-term capital loss to the extent of the capital gain distribution received.

Backup Withholding

The Fund may be required to withhold Federal income tax at a rate of 28% (“backup withholding”) from dividend payments and redemption proceeds if a shareholder fails to furnish the Fund with his or her social security or other tax identification number and certify under penalty of perjury that such number is correct and that he or she is not subject to backup withholding due to the under reporting of income. The certification form is included as part of the share purchase application and should be completed when the account is opened.

SHAREHOLDER MEETINGS AND ELECTION OF TRUSTEES

As a Delaware statutory trust, the Trust is not required to hold regular annual shareholder meetings and, in the normal course, does not expect to hold such meetings. The Trust, however, must hold shareholder meetings for such purposes as, for example: (i) approving certain agreements as required by the 1940 Act; (ii) changing fundamental investment restrictions of the Fund; and (iii) filling vacancies on the Board of Trustees in the event that less than a majority of the Board of Trustees were elected by shareholders or if filling a vacancy would result in less than two-thirds of the trustees having been elected by shareholders. However, matters affecting only one particular class can only be voted on by shareholders of that class. In addition, the shareholders may remove any Trustee at any time, with or without cause, by vote of not less than a majority of the shares then outstanding. Trustees may appoint successor Trustees.

CAPITAL STRUCTURE

Shares of Beneficial Interest

The Trust will issue new shares at its most current NAV. The Trust is authorized to issue an unlimited number of shares of beneficial interest. The Trust has registered an indefinite number of Fund shares under Rule 24f-2 of the 1940 Act. Each share has one vote and is freely transferable; shares represent equal proportionate interests in the assets of the applicable class of the Fund only and have identical voting, dividend, redemption, liquidation and other rights. The shares, when issued and paid for in accordance with the terms of the Prospectus, are deemed to be fully paid and non-assessable. Shares have no preemptive, cumulative voting, subscription or conversion rights. Shares can be issued as full shares or as fractions of shares. A fraction of a share has the same kind of rights and privileges as a full share on a pro-rata basis.

Additional Series

The Trustees may from time to time establish additional series or classes of shares without the approval of shareholders. The assets of each series belong only to that series, and the liabilities of each series are borne solely by that series and no other.

INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

The Trust’s Board of Trustees engaged Deloitte & Touche LLP, located at 555 East Wells Street, Milwaukee, Wisconsin 53202, to perform the annual audits of the Fund.

DESCRIPTION OF SECURITIES RATINGS

The Fund may invest in commercial paper and commercial paper master notes assigned ratings of either Standard & Poor’s Corporation (“Standard & Poor’s”) or Moody’s Investors Service, Inc. (“Moody’s”). A brief description of the ratings symbols and their meanings follows.

Standard & Poor's Commercial Paper Ratings

A Standard & Poor's commercial paper rating is a current assessment of the likelihood of timely payment of debt considered short-term in the relevant market. Ratings are graded into several categories, ranging from A-1 for the highest quality obligations to D for the lowest. The categories rated A-3 or higher are as follows:

A-1. This highest category indicates that the degree of safety regarding timely payment is strong. Those issuers determined to possess extremely strong safety characteristics are denoted with a plus sign (+) designation.

A-2. Capacity for timely payment on issues with this designation is satisfactory. However the relative degree of safety is not as high as for issuers designed "A-1."

A-3. Issues carrying this designation have adequate capacity for timely payment. They are, however, more vulnerable to the adverse effects of changes in circumstances than obligations carrying the higher designation.

Moody's Short-Term Debt Ratings.

Moody's short-term debt ratings are opinions of the ability of issuers to repay punctually senior debt obligations which have an original maturity not exceeding one year. Obligations relying upon support mechanisms such as letters-of-credit and bonds of indemnity are excluded unless explicitly rated.

Moody's employs the following three designations, all judged to be investment grade, to indicate the relative repayment ability of rated issuers:

Prime-1. Issuers rated Prime-1 (or supporting institutions) have a superior ability for repayment of senior short-term debt obligations. Prime-1 repayment ability will often be evidenced by many of the following characteristics:

1. Leading market positions in well-established industries.
2. High rates of return on funds employed.
3. Conservative capitalization structure with moderate reliance on debt and ample asset protection.
4. Broad margins in earnings coverage of fixed financial charges and high internal cash generation.
5. Well-established access to a range of financial markets and assured sources of alternate liquidity.

Prime-2. Issuers rated Prime-2 (or supporting institutions) have a strong ability for repayment of senior short-term debt obligations. This will normally be evidenced by many of the characteristics cited above but to a lesser degree. Earnings trends and coverage ratios, while sound, may be more subject to variation. Capitalization characteristics, while still appropriate, may be more affected by external conditions. Ample alternate liquidity is maintained.

Prime-3. Issuers rated Prime-3 (or supporting institutions) have an acceptable ability for repayment of senior short-term obligations. The effect of industry characteristics and market compositions may be more pronounced. Variability in earnings and profitability may result in changes in the level of debt protection measurements and may require relatively high financial leverage. Adequate alternate liquidity is maintained.

The Fund may invest in debt securities of foreign countries rated AAA or AA by Standard & Poor's.

Standard & Poor's Ratings For Corporate Bonds

AAA Debt rated AAA has the highest rating assigned by Standard & Poor's. Capacity to pay interest and repay principal is extremely strong.

AA Debt rated AA has a very strong capacity to pay interest and repay principal and differs from the higher rated issues only in small degree.

- A Debt rated A has a strong capacity to pay interest and repay principal although it is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than debt in higher rated categories.
- BBB Debt rated BBB is regarded as having an adequate capacity to pay interest and repay principal. Whereas it normally exhibits adequate protection parameters, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity to pay interest and repay principal for debt in this category than in higher rated categories.
- BB Debt rated “BB” has less near-term vulnerability to default than other speculative issues. However, it faces major ongoing uncertainties or exposure to adverse business, financial or economic conditions which would lead to inadequate capacity to meet timely interest and principal payments. The “BB” rating category is also used for debt subordinated to senior debt that is assigned an actual or implied “BBB” or “BBB-” rating.
- B Debt rated “B” has a greater vulnerability to default but currently has the capacity to meet interest payments and principal repayments. Adverse business, financial or economic conditions will likely impair capacity or willingness to pay interest and repay principal. The “B” rating category is also used for debt subordinated to senior debt that is assigned an actual or implied “BB” or “BB-” rating.
- CCC Debt rated “CCC” has a currently identifiable vulnerability to default, and is dependent upon favorable business, financial and economic conditions to meet timely payment of interest and repayment of principal. In the event of adverse business, financial or economic conditions, it is not likely to have the capacity to pay interest and repay principal. The “CCC” rating category is also used for debt subordinated to senior debt that is assigned an actual or implied “B” or “B-” rating.
- CC The rating “CC” typically is applied to debt subordinated to senior debt that is assigned an actual or implied “CCC” or “CCC-” rating.
- C The rating “C” typically is applied to debt subordinated to senior debt that is assigned an actual or implied “CC” or “CC-” debt rating. The “C” rating may be used to cover a situation where bankruptcy petition has been filed, but debt service payments are continued.
- D Debt rated “D” is in payment default. The “D” rating category is used when interest payments or principal payments are not made on the date due even if the applicable grace period has not expired, unless Standard & Poor’s believes that such payments will be made during the period. The “D” rating also will be used upon the filing of a bankruptcy petition if debt service payments are jeopardized.

Moody’s Ratings for Bonds

- Aaa Bonds which are rated Aaa are judged to be of the best quality. They carry the smallest degree of investment risk and are generally referred to as “gilt-edged.” Interest payments are protected by a large or by an exceptionally stable margin and principal is secure. While the various protective elements are likely to change, such changes as can be visualized are most unlikely to impair the fundamentally strong position of such issues.
- Aa Bonds that are rated Aa are judged to be of high quality by all standards. Together with the Aaa group they comprise what are generally known as high-grade bonds. They are rated lower than the best bonds because margins of protection may not be as large as in Aaa securities or fluctuation of protective elements may be of greater amplitude or there may be other elements present which make the long-term risk appear somewhat larger than the Aaa securities.
- A Bonds that are rated A possess many favorable investment attributes and are to be considered as upper-medium-grade obligations. Factors giving security to principal and interest are considered adequate, but elements may be present which suggest a susceptibility to impairment sometime in the future.
- Baa Bonds that are rated Baa are considered as medium grade obligations (*i.e.*, they are neither highly protected nor poorly secured). Interest payments and principal security appear adequate for the present

but certain protective elements may be lacking or may be characteristically unreliable over any great length of time. Such bonds lack outstanding investment characteristics and in fact have speculative characteristics as well.

- Ba Bonds that are rated Ba are judged to have speculative elements; their future cannot be considered as well-assured. Often the protection of interest and principal payments may be very moderate and thereby not well safeguarded during both good and bad times over the future. Uncertainty of position characterizes bonds in this class.
- B Bonds that are rated B generally lack characteristics of the desirable investment. Assurance of interest and principal payments or of maintenance of other terms of the contract over any long period of time may be small.
- Caa Bonds that are rated Caa are of poor standing. Such issues may be in default or there may be present elements of danger with respect to principal or interest.
- Ca Bonds that are rated Ca represent obligations which are speculative in a high degree. Such issues are often in default or have other marked shortcomings.
- C Bonds that are rated C are the lowest rated class of bonds and issues so rated can be regarded as having extremely poor prospects of ever attaining any real investment standing.
